TOCA Race Driver 2 is based on the 2005 TOCA series, which began with the original TOCA Race Driver. It was released in November 2005 in North America and in February 2006 in Europe. The game features a separate game engine from TOCA Race Driver and TOCA2 Race Driver, and as a result differs from these earlier games in both gameplay and design. In TOCA Race Driver 2, the player controls a single race car during the whole race. The game features multiple driving locations in and around the various British cities including the city of Coventry, Birmingham, London, Bristol, Cardiff, Glasgow, Swansea, Leeds, and Sheffield. Players must compete in a single race at any one of these locations to win the game. The game's visual design differs from its predecessors, with a similar dark and dynamic feel to its namesake. TOCA Race Driver 2 was a commercial success, with 800,000 copies sold in its first week of release, and over 2.5 million by the end of the year. The game received mostly favourable reviews, with criticism aimed at the game's short length. Gameplay TOCA Race Driver 2 is a racing game set in six cities around the United Kingdom. The game features multiple tracks, all based around the United Kingdom. The game's primary focus is to compete in a single race at one of the six tracks per city. It is a single-player game only, with no online or multiplayer components. The game features a single race per city. The game takes place on varying race locations across a city, such as the Hockley and Hunstey runways of Birmingham Airport. The tracks are based around the United Kingdom, and feature varied locations that include the city of Coventry, Birmingham, Cardiff, London, Bristol, and Glasgow. Players must choose the best location to race at to win the game. The course is set up by the 'Rover' computer-controlled vehicle, the player must either crash the vehicle or lead it into a turn by the required speed and angle. The game features seven cars, each with its own unique handling. During the game, the player has a choice of three driving modes. When the computer chooses to pit the player's car, the player must either drive to the pit stop or crash the car. The game is set up so that if the player chooses to crash the car, the car will be immediately placed back at the start, which 82157476af
